

I listen to K-Love on 91.1 FM in the Denver Metro area. My family and I listen approximately 4-5 hours each day. It inspires us and helps us keep a positive attitude throughout the day. I have personally recommended this radio station to 8 friends who now also listen. There are hundreds of testimonies about people are down and depressed who find K-LOVE on the radio and are encouraged to seek help. This could not occur if K-LOVE is no longer broadcast in an area because of this proposed change in priority. We all need a bright spot in our lives, many of us depend on K-Love for that.
